Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This SOP describes asset inventory procedure for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. Asset records use the prefix AST followed by six digits.
2. Reconcile the inventory on the last working day of each month.
3. Loan devices retain the original asset identifier.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.
