

Phishing report FAQ

SEC-003 | Security | FAQ | Version 2.0

Document control	Value
Access level	INTERNAL
Effective date	2026-04-01
Status	current
Owner	Security process owner
Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This FAQ describes phishing report faq for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. Use the Report Suspicious button to submit questionable messages.
2. Do not forward attachments to coworkers.
3. Security triages reports within four business hours.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.

Phishing report FAQ - 2/6

Frequently asked questions

Q: What rule applies to a normal request?

A: Use the Report Suspicious button to submit questionable messages. The request owner records the decision in the relevant case or workspace so another reviewer can reconstruct the result.

Q: What if the request arrives incomplete?

A: Ask for the missing scope, affected period and responsible owner. Do not forward attachments to coworkers. Do not close a case merely because it lacks an attachment; retain the clarification history.

Q: How should a conflicting answer be handled?

A: Cite SEC-003, version 2.0, effective 2026-04-01, and the relevant page. Distinguish current policy from an archived rule or a contract-specific exception.

Q: Can the support queue change the requirement?

A: The queue can explain a rule but cannot approve an exception. Route an exception to the process owner and retain the approval record.
