Purpose and scope

This FAQ describes whistleblowing faq for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. The fictional reporting portal accepts anonymous reports.
2. Retaliation concerns are routed to the independent review role.
3. Case visibility is limited to assigned investigators.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.

Frequently asked questions

Q: What rule applies to a normal request?

A: The fictional reporting portal accepts anonymous reports. The request owner records the decision in the relevant case or workspace so another reviewer can reconstruct the result.

Q: What if the request arrives incomplete?

A: Ask for the missing scope, affected period and responsible owner. Retaliation concerns are routed to the independent review role. Do not close a case merely because it lacks an attachment; retain the clarification history.

Q: How should a conflicting answer be handled?

A: Cite COM-011, version 2.0, effective 2026-04-01, and the relevant page. Distinguish current policy from an archived rule or a contract-specific exception.

Q: Can the support queue change the requirement?

A: The queue can explain a rule but cannot approve an exception. Route an exception to the process owner and retain the approval record.
