

Travel reimbursement policy - archived

FIN-002 | Finance | POLICY | Version 1.0

Document control	Value
Access level	INTERNAL
Effective date	2024-01-01
Status	archived
Owner	Finance process owner
Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This policy describes travel reimbursement policy - archived for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapselQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. Domestic lodging reimbursement was capped at 110 Meridian credits per night.
2. Claims were due within 45 calendar days.
3. The old policy did not provide a customer-event exception.

Historical notice: this version is superseded as of 2026-04-01. Use it only for questions explicitly asking about the 2024 rule.

Travel reimbursement policy - archived - 2/4

Procedure and responsibilities

1. The requester states the business purpose and affected scope. Domestic lodging reimbursement was capped at 110 Meridian credits per night.
2. The assigned owner checks completeness and applies the relevant rule. Claims were due within 45 calendar days.
3. The reviewer records the decision, required evidence and any approved exception. The requester receives the case reference and next action.
4. The owner verifies completion, documents any unresolved issue and schedules a review if the arrangement remains active.

Role	Responsibility
Requester	Provide scope, requested period and synthetic supporting evidence
Finance owner	Interpret the requirement and assign a decision owner
Independent reviewer	Check approval limits and exception evidence
Record custodian	Retain the case according to the applicable schedule

Worked scenario

Example SYN-FIN-002-02: the Cedar project team submits a request with an incomplete review date. The owner returns the case for clarification instead of assuming approval. Once the date and scope are supplied, the rule is applied and the decision is logged.

Exception and evidence

An exception must name the approving role, limited scope and expiry. A verbal suggestion or old FAQ does not override the controlling requirement. Store evidence in the authorized workspace and preserve version context.
