

Accounts payable SOP

FIN-003 | Finance | SOP | Version 2.0

Document control	Value
Access level	INTERNAL
Effective date	2026-04-01
Status	current
Owner	Finance process owner
Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This SOP describes accounts payable sop for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. Invoices above 5000 Meridian credits require two approvers.
2. Complete invoice matching within five working days.
3. Disputed invoices are held with a documented reason.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.

Accounts payable SOP - 2/5

Procedure and responsibilities

1. The requester states the business purpose and affected scope. Invoices above 5000 Meridian credits require two approvers.
2. The assigned owner checks completeness and applies the relevant rule. Complete invoice matching within five working days.
3. The reviewer records the decision, required evidence and any approved exception. The requester receives the case reference and next action.
4. The owner verifies completion, documents any unresolved issue and schedules a review if the arrangement remains active.

Role	Responsibility
Requester	Provide scope, requested period and synthetic supporting evidence
Finance owner	Interpret the requirement and assign a decision owner
Independent reviewer	Check approval limits and exception evidence
Record custodian	Retain the case according to the applicable schedule

Worked scenario

Example SYN-FIN-003-02: the Cedar project team submits a request with an incomplete review date. The owner returns the case for clarification instead of assuming approval. Once the date and scope are supplied, the rule is applied and the decision is logged.

Exception and evidence

An exception must name the approving role, limited scope and expiry. A verbal suggestion or old FAQ does not override the controlling requirement. Store evidence in the authorized workspace and preserve version context.
