

Purchase order instructions

FIN-004 | Finance | FORM INSTRUCTIONS | Version 2.0

Document control	Value
Access level	INTERNAL
Effective date	2026-04-01
Status	current
Owner	Finance process owner
Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This form instructions describes purchase order instructions for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. A purchase order is required before supplier commitment above 750 credits.
2. The budget owner approves the cost center.
3. Emergency purchases need retrospective review within two days.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.

Purchase order instructions - 2/6

Blank form and completion instructions

Field	Instruction
Case identifier	Use SYN-FIN-004-02; this is a sample ID, not an actual case.
Business purpose	State the requested outcome and affected scope.
Requested period	Enter start date, end date and review date.
Responsible role	Enter the assigned Finance owner role; do not include personal contact details.
Approval record	A purchase order is required before supplier commitment above 750 credits.
Exception rationale	The budget owner approves the cost center.
Completion status	Select draft, submitted, approved, returned or closed.

Submission and correction

Submit through the fictional Meridian case queue. Corrections retain the earlier value, corrected value and reason. An empty approval field is not evidence of approval. Attach only synthetic evidence when using this dataset.

Sample reviewer note

Case SYN-FIN-004-02 is returned for clarification because the scope field does not identify the affected workflow. The requester may resubmit after adding a scope and review date.

Related search terms
