## Purpose and scope

This SOP describes emergency spend procedure for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

## Key requirements

1. Emergency spend up to 2000 credits requires the incident commander and budget owner.
2. A case record must be completed within 48 hours.
3. This procedure does not waive supplier verification.

Authority: effective from 2026-04-01. If a local quick guide disagrees, use the current approved controlling policy and record the discrepancy.
