

Travel logistics quick guide

OPE-010 | Operations | GUIDE | Version 1.0

Document control	Value
Access level	CONFIDENTIAL
Effective date	2025-02-01
Status	stale
Owner	Operations process owner
Scope	Meridian Works fictional enterprise; all locations unless stated otherwise

Purpose and scope

This guide describes travel logistics quick guide for Meridian Works. It is part of a wholly fictional enterprise knowledge base created for SynapseIQ retrieval experiments. The rules and figures below are invented operational assumptions, not real company rules or professional guidance.

Key requirements

1. This older quick guide quotes a domestic hotel cap of 110 Meridian credits.
2. The guide is stale and is not authoritative for reimbursement.
3. Use the current Finance travel policy for claim limits.

Authority notice: this quick guide was not refreshed with the April 2026 policy release. It must not be used to resolve current reimbursement questions.

Travel logistics quick guide - 2/2

Procedure and responsibilities

1. The requester states the business purpose and affected scope. This older quick guide quotes a domestic hotel cap of 110 Meridian credits.
2. The assigned owner checks completeness and applies the relevant rule. The guide is stale and is not authoritative for reimbursement.
3. The reviewer records the decision, required evidence and any approved exception. The requester receives the case reference and next action.
4. The owner verifies completion, documents any unresolved issue and schedules a review if the arrangement remains active.

Role	Responsibility
Requester	Provide scope, requested period and synthetic supporting evidence
Operations owner	Interpret the requirement and assign a decision owner
Independent reviewer	Check approval limits and exception evidence
Record custodian	Retain the case according to the applicable schedule

Worked scenario

Example SYN-OPE-010-02: the Cedar project team submits a request with an incomplete review date. The owner returns the case for clarification instead of assuming approval. Once the date and scope are supplied, the rule is applied and the decision is logged.

Exception and evidence

An exception must name the approving role, limited scope and expiry. A verbal suggestion or old FAQ does not override the controlling requirement. Store evidence in the authorized workspace and preserve version context.
